CUBIC DESIGNS INTRODUCES NEW LINE OF CODE APPROVED STAIRS

New Berlin, WI . . . Cubic Designs is currently introducing a line of code approved steel stairways. Cubic Stairways are designed for indoor or outdoor applications including mezzanines, loading dock areas, work platforms, conveyor crossovers, fire exits, construction trailers, storage trailers, in-plant offices and elevated work areas.

Cubic Stairways are professionally engineered to meet IBC, UBC and OSHA requirements and built with pre-manufactured components. Cubic Stairways are constructed from heavy gauge steel and offered with solid diamond treads. One-piece stringers and handrail assemblies improve rigidity and ease of installation. Each Cubic Stairway is shipped knocked down - all components and hardware included.

Cubic Stairways are protected with an attractive, durable, powder coat finish available in 14 colors. Custom colors and finishes are also available upon request. Stairway options include code-approved handrail, stair platforms, closed risers and handrail extensions. Custom configurations and sizes are also available to meet exact needs.

Cubic Designs, Inc manufactures a full line of industrial safety products designed to provide total plant protection. The company offers heavy-duty Safety Rail, Rack Guards, Track Guards, Handrail Systems, Safety Gates, Bollards, Rack Aisle Guards, Ladders & Cages and Code-Approved Stairways. For more information, call Cubic Designs at 800-826-7061, or visit the company's web site at www.cubicspg.com.
